Definitions

7. For the purposes of policy application, the following definitions apply:

Compensation Principle: As stipulated by paragraphs 21(2)(a) and 21(2)(b) of the [Pension Act](#) and subsections 2(1) and 45(1) of the [Veterans Well-being Act](#), a member is eligible for a disability pension and/or pain and suffering compensation for a disability or death resulting from injury or disease or the aggravation thereof that arose out of or was directly connected to military service in the non-permanent active militia or in the reserve army during World War II or in peacetime. Under this principle, in order to establish that a disability is service-related, one must demonstrate that the disability was caused by military service and not simply that the condition had its onset during service.

Disembarkation Leave: Also known as Special Leave - Relocation. Members will be granted disembarkation leave when posted, attach posted or attach posted (temporary) to a deployed operation. This leave is granted for both service in an SDA or as part of an SDO, but is not included in the deployment dates indicated on the Member Personnel Record Resume (MPRR).

The length of disembarkation leave granted upon the return is dependent on the length of deployment:

1 to 13 days - no entitlement to disembarkation leave

14 to 30 days - 3 days of disembarkation leave

31 to 60 days - 4 days of disembarkation leave

61 to 89 days - 5 days of disembarkation

90 days or greater - 7 days of disembarkation leave

Embarkation Leave: Also known as Special Leave - Relocation. Members will be granted embarkation leave when posted, attach posted or attach posted (temporary) to a deployed operation. This leave is granted for both service in an SDA or as part of an SDO. However, it should be noted that due to operational requirements, there may be instances where this leave cannot be taken.

The length of embarkation leave granted is dependent on the length of deployment:

1 to 13 days - no entitlement to embarkation leave

14 to 30 days - 1 day of embarkation leave

31 to 60 days - 3 days of embarkation leave

61 to 89 days - 4 days of embarkation leave

90 days or greater - 5 days of embarkation leave

Embarkation leave is calculated as working days, meaning Monday to Friday and excluding statutory holidays, which are normally taken consecutively and are not included in the deployment dates indicated on the MPRR.

Insurance Principle: As stipulated by paragraphs 21(1)(a) and 21(1)(b) of the *Pension Act* and subsections 2(1) and 45(1) of the *Veterans Well-being Act*, a member is eligible for a disability pension and/or pain and suffering compensation for a disability or death resulting from injury or illness which was incurred during, attributable to, or aggravated during Wartime Service or Special Duty Service. This eligibility is referred to as the Insurance Principle, as individuals are covered 24 hours a day, seven days a week, and only need to demonstrate that their disability had its onset during the qualifying period of service. Unlike the Compensation Principle, no causal link needs to be established between the disability and military service.

Korean War: Period between June 25, 1950 and October 31, 1953, inclusive.

Leave: Other authorized leave as granted to a member by a commanding officer and prescribed by regulation.

Special Duty Area (SDA): Specific geographic areas outside Canada where members are exposed to conditions of elevated risk.

Special Duty Operation (SDO): Missions/operations which involve elevated risk. These may take place in or outside Canada.

Special Duty Service: As of September 11, 2001, includes service in an SDA, service in an SDO, periods of training for the express purpose of service in that area or as part of that operation, travel to and from the area, the operation, or the location of training (for the express purpose of special duty service), and/or authorized leave of absence with pay during that service, wherever that leave is taken.

Special Leave (Mission): Members are granted Special Leave (Mission) to leave a mission area and relieve stress in a non-threatening location. This applies to members who are on International Operations who serve for at least 30 continuous days in the area of operations. Special Leave (Mission) is granted by the Commander of a Command and the length may vary from mission to mission.

Third Location Decompression Program: This program takes place in a location away from the SDA/SDO, just prior to a unit's return to Canada. The program lasts normally for a minimum of two days and is included in the member's SDA/SDO dates. The member is not considered on "leave" during this time.

Training: Periods of training for the express purpose of service in an SDA or SDO. These periods of training are designated by the Department of National Defence Force Employer.

Wartime Service: Military service during World War I, World War II, and the Korean War.

World War I: Period between August 4, 1914 and August 31, 1921, both dates inclusive.

World War II: Period between September 1, 1939 and April 1, 1947, both dates inclusive.

Wartime Service

8. Members of the Canadian Expeditionary Force (World War I), the Active Force (World War II) and Special Force (Korean War and Theatre of Operations) are all covered under the Insurance Principle from their date of enlistment to their date of discharge, whether they served in Canada or overseas.
9. Members of the Militia who were conscripted by the NRMA for active service during World War II and had continuous full-time service (i.e. no break in service) following the thirty-day training period, are eligible for Insurance Principle coverage whether or not they attested to the Active Force.

10. Members of the non-permanent active militia (NPAM) and the reserve army (World War II service) are excluded from Insurance Principle coverage.

Special Duty Area and Special Duty Operation

11. While serving in an SDA or as part of an SDO, members are eligible under the Insurance Principle for:
 - a. service in the SDA/SDO;
 - b. travel to and from the SDA/SDO;
 - c. leave taken during service in the SDA/SDO, no matter where that leave is taken; and
 - d. time spent in the Third Location Decompression Program.
12. RCMP members may serve within a designated SDO in Canada without being deployed to the SDO. In these circumstances, the member continues in the performance of his or her regular peacetime duties and is covered pursuant to the Compensation Principle [subsection 21(2) of the *Pension Act*] for disability pension purposes.

Training

13. As of September 11, 2001, while participating in training for the express purpose of service in a specific SDA/SDO, members are eligible under the Insurance Principle for:
 - a. time participating in the training;
 - b. travel to and from the training; and
 - c. leave taken during the training, including programmed down-time (i.e., week-ends and afterhours).
14. Individuals are covered only during periods of training which are designated by the Department of National Defence (DND) as training for the express purpose of service in a specific SDA/SDO.
15. Only the periods of specially designated training periods, for a specific SDA/SDO are eligible for Insurance Principle coverage. Although members may consider themselves on pre-deployment training commencing the day they receive notification from DND informing them that they are to deploy until their actual deployment, this period of time is not entirely covered by the Insurance Principle.

16. Whether the training takes place on a member's home base or away has no impact on whether the member is covered by the Insurance Principle or not. Specifically designated SDA/SDO training is covered whether it takes place at home or away.
17. Insurance Principle coverage includes the full 24 hour period, unless specific commencement and end times (hours) are provided by DND. If specific hours are provided, then individuals are covered by the Insurance Principle only during the specified hours.

Travel

18. If a CF personal travel or unit movement order specifies date and time of travel, individuals are covered only during the designated date and time. If only the date is specified, Insurance Principle coverage includes the full 24 hour period.
19. As of September 11, 2001, members are eligible during travel for the express purpose of:
 - a. training which is designated by DND as training for the express purpose of service in a specific SDA/SDO; and/or
 - b. travelling to, and returning from a SDA/SDO.
20. There is no limitation on the length of time that DND may designate as travel for the purpose of training and/or SDA/SDO service.

Leave

21. Members are covered by the Insurance Principle during:
 - a. authorized leave with pay taken during service in a SDA/SDO [Special Leave (Mission)], after September 11, 2001, wherever that leave is taken;
 - b. authorized leave taken during a training event designated by DND for service in a specific SDA/SDO, including programmed down-time (i.e. after-hours and week-ends) as long as it falls within the designated training dates; and/or
 - c. Embarkation Leave and Disembarkation Leave as documented by DND.

Sexual Trauma

22. The following sections of this policy clarify how it will be applied by Veterans Affairs Canada when adjudicating applications for disability benefits involving claims of Sexual Trauma. Sexual Trauma includes incidents of sexual assault and/or sexual harassment.
23. When an application for disability benefits involves a condition (either physical or psychiatric) that is claimed to have been caused by Sexual Trauma, VAC will accept that the incident(s) of Sexual Trauma occurred as described in the applicant's credible statement, in the absence of contradictory evidence (see [Benefit of Doubt](#) policy).
24. While VAC may accept that the incident(s) of Sexual Trauma occurred as described in the applicant's statement, to grant entitlement VAC must determine that:
 - a. the claimed condition had its onset during service in an SDA/SDO; or
 - b. the Sexual Trauma incident(s) linked to the claimed condition (see paragraph 23) occurred during service in an SDA/SDO.
25. All applications for disability benefits must include a diagnosis of the applicant's claimed condition, provided by a qualified health professional. For claims related to Sexual Trauma, the health professional's report must support the link between the incident(s) of Sexual Trauma, and the onset of the claimed condition.

Exclusions

26. Cases which meet the test of section 22 of the *Pension Act* (Improper Conduct) or subsection 2(5) of the *Veterans Well-being Act* (Conduct of a Member), may not be eligible for Insurance Principle coverage and should therefore be considered on a case by case basis. For further details, please refer to the policy entitled [Improper Conduct](#).
27. Other types of authorized leave attached to Embarkation Leave and Disembarkation Leave are not considered as part of Special Duty Service and therefore not covered by the Insurance Principle.
28. Leave taken prior to September 11, 2001, outside an SDA, is not considered Special Duty Service. Prior to this date, to receive Insurance Principle coverage during leave, the leave had to be taken within the geographic location of the SDA.
